

Cabinet – 23 July 2007

Questions From a Councillor

The following questions have been received from Councillor Nicholson which he wishes to ask the Lead Councillor for Planning, Councillor Gardiner:

"The breakwater at Newhaven is out of bounds to the Public. The state of repair of the Breakwater is the subject of speculation. The breach of the Breakwater would clearly have consequences. I have not seen any evidence that this council is taking a pro-active stance on this issue.

What are the Council's powers? How does it propose exercising them? What information do we currently have on the state and condition of the Breakwater? What plans have been put forward by the owner as to its future maintenance?"
