7 December 2016

Questions from Members of the Public (Agenda Item No 6)

The following question has been submitted by Mr Vivian Carrick, Secretary, Peacehaven Focus Group, which is to be put to the Cabinet Member for Planning, Councillor Jones:

“Taking in to consideration the Supreme Court and very recent High Court ruling for immediate action for the UK government to review AQAPs, speed up and improve measures to combat harmful air pollution levels, particularly nitrogen dioxide and comply with EU Legislation, what immediate and future plans are Lewes District Council taking to address these matters and safeguard the health of their residents and future generations from Peacehaven to East Saltdean, because of recent, current and future building developments as stated in the Local Plan, which as a result increases traffic pollution, due to high levels of slow moving traffic both ways along the A259 particularly at rush hour?”
