There will be an opportunity for members of the public to speak on the application on this agenda where they have registered their interest by 12noon on the day before the meeting.

Planning Applications OUTSIDE the South Downs National Park

Section 2 of each report identifies policies which have a particular relevance to the application in question. Other more general policies may be of equal or greater importance. In order to avoid unnecessary duplication general policies are not specifically identified in Section 2. The fact that a policy is not specifically referred to in this section does not mean that it has not been taken into consideration or that it is of less weight than the policies which are referred to.

Planning Applications WITHIN the South Downs National Park

The two statutory purposes of the South Downs National Park designations are:

- To conserve and enhance the natural beauty, wildlife and cultural heritage of their areas
- To promote opportunities for the public understanding and enjoyment of the special qualities of their areas.

If there is a conflict between these two purposes, conservation takes precedence. There is also a duty to foster the economic and social well-being of the local community in pursuit of these purposes. Government policy relating to national parks set out in National Planning Policy Framework and Circular 20/10 is that they have the highest status of protection in relation to natural beauty, wildlife and cultural heritage and their conservation and enhancement must, therefore, be given great weight in development control decisions.
