

Suggestions for Scrutiny Committee Work Programme 2013/14

Title	Suggested by	Further Information
Ageing Population Strategy	Councillor Osborne	LDC does not have one, could cover many departments.
Lewes District Council's tree management policy	Councillor Lambert	Paying particular regard to: - the needs and wishes of local residents - sustainability and cost - alignment with East Sussex County Council's recently reviewed tree planting and other relevant policies. Evidence could be included from local tree surgeons and tree wardens.
Retail Review	Councillor Nicholson	Discussion to see whether a general review of retail trading in the District would be useful. Ensure if you do have a review you are not duplicating other work by planners etc. The question has to be whether a review would add anything to current knowledge.
Review of Agile Working Project	Suggested at previous Committee	Review how the agile working project worked, talk to staff.
Organisation of large events within the District.	Councillor O'Keeffe	No policy governing the way in which proposals for, decisions about and the organisation of large events undertaken by the District or with the permission of the District on our land are undertaken. Clear guidelines in place about who was involved, contacted, who did what and with what timescales would be of great benefit to the people who live in the District. The Mumfords concert as an example - would be very valuable to look at the processes involved and the results of these.
Decision making	Councillor O'Keeffe	Taking into account our low

process regarding not being part of the East Sussex Joint Waste and Recycling Contract		recycling rate and the decision making behind this.
Council Tax Reduction Scheme year 2	John Magness
