1 Introduction

1.1 On 5th June 2019, Cabinet was presented with a report entitled 'Enabling Community Assets – Royal Hippodrome Theatre and Langney Playing Fields'; the report asked Cabinet for in principle agreement to the disposal of these community assets and stated that a further report would be brought back to Cabinet regarding a future Community Asset Transfer (CAT) policy. This report sets out proposed revisions to the Property Disposal and Transfer Policy in order to include reference to CAT.

2 Proposal

2.1 Cabinet adopted the Corporate Asset Management Plan (AMP) in 2017. The AMP focuses on 4 key areas:

- Improving yield from the investment portfolio.

- Reducing maintenance costs and liabilities.
- Delivering efficiencies through smarter procurement.
- Increasing the capital value of the Council's asset base.

2.2 The AMP provides the strategy framework for the Council to manage and maximise the potential of its property portfolio. A key part of the AMP is the need to unlock potential through Asset Challenge and ensure that retained assets combine social, cultural, environmental and economic benefits.

2.3 A number of policies were adopted in support of the AMP, including a Property Disposal and Transfer Policy; this policy has now been revised to include reference to CAT.

2.4 CAT is the transfer of management and/or ownership of property to an organisation where there is an identified social, economic or environmental benefit. Community-based organisations can sometimes be better placed than local authorities at securing investment through sources such as the National Lottery, crowdfunding, sponsorship and legacies. Having control over their assets can enable these organisations to become more self-sufficient, secure and sustainable whilst also ensuring the long-term community benefit of assets. The revised policy is attached at Appendix A.

2.5 The Property and Disposal Policy has been updated to ensure future assets disposal considers the financial impacts on the Council's Medium Term Finance Plan. Other updated sections include—

- Working strategically with partners to reduce the Council's Carbon Footprint through identifying the least efficient properties and ensuring disposal properties are compliant with all existing and future energy requirements;
- Definition of surplus asset for disposal;
- Disposal of surplus assets by freehold or leasehold disposal;
- Financial criteria for disposals;
- Valuations for disposal and updating the Council Asset Register;
- Procedures re the disposal of land.

3. Corporate plan and council policies

3.1 The Property and Disposal Policy is a key part of the AMP which meets the following aspirations of the Corporate Plan:

- Prosperous economy: by improving Eastbourne as a destination, supporting employment, providing opportunities for business growth, and identifying opportunities for investing in housing and economic development;
 - Quality environment: by identifying opportunities to reduce the carbon footprint, and supporting a high quality built environment and excellent parks and open spaces;
 - Thriving communities: by increasing community resilience and ensuring the Customer comes first;
 - Sustainable performance: by making the best use of assets, proactively

managing building performance, working with partners to deliver improvements and delivering a balanced budget.

3.2 In addition it supports achieving the 2026 Partnership vision of Eastbourne being a premier seaside destination.

4. Financial appraisal

4.1 There are no immediate financial implications arising from the recommendation in this report other than those already contained within existing budgets. Future assets disposal activity arising from adoption of this revised policy will be subject to viability analysis and due financial diligence.

5. Legal implications

5.1 The revisions to the policy relate to Community Asset Transfers (“CAT”) and the policy includes the additional legal considerations required when considering a CAT which relate to disposals at an undervalue and state aid.

PWB 26/9/19 IKEN 8556

6. Risk management implications

6.1 The proposals in this report do not create any additional risks for the Council. Revision of the Disposals and Transfer Policy to include provision for Community Asset Transfer will provide a clear and transparent process for dealing with future proposals where transfer of a property to a community organisation is considered.

7. Equality analysis

7.1 An equality analysis has been undertaken and has not identified any equality impacts as a result of this policy revision. Where proposals are brought forward for Community Asset Transfer, these will require individual assessments to ascertain any equality impacts.

8. Environmental impact analysis

8.1 There are no environmental impacts of this policy which is essentially about protecting assets for future community use.

9. Appendices
