IR35 (continued)	Medium	Consideration should be given to the way in which consultants are set up for work in terms of equipment and communications.	AD for HR is undertaking investigations. Results will go back to working group. End of July
	High	The working group must write procedures for all the steps which must be followed by managers when considering hiring consultants	IR35 page being set up on the Hub where there will be a procedure, guidance notes and a downloadable RAF and SDS. This part of the process will be owned by the HR team. Will be done by end of August.
	High	A page should be set up on the Hub, or the current Agency Workers page updated, to explain about the considerations to be made when hiring consultants and the new IR35 procedures should be accessed from this page.	IR35 page being set up on the Hub where there will be a procedure, guidance notes and a downloadable RAF and SDS. This part of the process will be owned by the HR team. Will be done by end of August.
	Medium	The working group should carry out occasional review of the process.	Future meetings will be set up as and when appropriate, and at least once a year e.g. to review new proposed IR35 documentation; review IR35 process and outcomes. <u>Audit note</u> To be tested at next follow up to ensure occasional meetings are taking place.
	High	Consideration should be given to awareness training for staff either via Olle or training via Teams. APPENDIX B OUTSTANDING RECOMMENDATIONS AFTER FOLLOW UP/ACTIONS

AUDIT REPORT	RISK LEVEL	OUTSTANDING RECOMMENDATION	CLIENT COMMENTS
IR35 (continued)	Medium	Finance should investigate the use of the IR35 fields on Cafi and use if possible.	<p>Information regarding these fields has been obtained from Civica. In Civica Financials the IR35 functionality is an optional add on that is chargeable. Costs are not known at this point. It would allow the IR35 flags against suppliers to be set and dependent on input could lead to invoices being put in dispute where a supplier was determined to be subject to IR35 regulations. It would enable IR35 status determination results to be recorded on the system against suppliers.</p> <p><u>Audit note</u> Work still needs to be undertaken to establish whether this will be used or not.</p>
	Medium	The first time an invoice is processed for payment for a consultant, the payment must not be made until paperwork which supports the decision for/against IR35 is passed to the Creditors team.	<p>Creditors are manually raising any issues they spot with payments entered onto the Creditors system which would generate a payment to single officer consultancy firm.</p> <p><u>Audit note</u> It should be noted that no payment should be made without a self-determination and it is not clear whether this is the “issues” noted here. As there are few cases a check of any payments made will be carried out at the next follow up.</p>
	Medium	A centralised list of determinations should be held and this should be managed by HR.	As part of the new process, an IR35 drive is being set up by the HR team where all documentation regarding both the process and individual IR35 employment records will be kept. Will be done by end of August.
