Dear Cabinet Members

Vehicle Replacement Strategy

Following the meeting of the Board this afternoon, I am writing to confirm that the Board **recommends the Vehicle Replacement Strategy to Cabinet for approval.**

We believe as a Board, it sets out:

- ✓ To reduce our carbon emissions
- ✓ To provide flexibility
- ✓ To benefit the environment
- ✓ To reduce borrowing

In summary we believe the strategy enables us to keep our options open whilst trading through extremely changeable conditions. SEESL is required to be agile, commercial and environmentally conscious, whilst at the same time delivering exceptional standards to our residents.

Signed:

J Dow
Chair

On behalf of the Board of South East Environmental Services Ltd
