

<b>App.No:</b> 141356	<b>Decision Due Date:</b> 6 January 2015	<b>Ward:</b> Meads
<b>Officer:</b> Richard Elder	<b>Site visit date:</b> 18 December 2014	<b>Type:</b> Planning Permission
<b>Site Notice(s) Expiry date:</b> 29 November 2014		
<b>Neighbour Con Expiry:</b> 28 November 2014		
<b>Weekly list Expiry:</b> 18 November 2014		
<b>Press Notice(s):</b> 25 November 2014		
<b>Over 8/13 week reason:</b> Referred to Planning Committee		
<b>Location:</b> Greynore, 45 Darley Road, Eastbourne		
<b>Proposal:</b> Installation of a wall mounted canopy to be used as a smoking shelter.		
<b>Applicant:</b> University of Brighton		
<b>Recommendation:</b> Approved conditionally		

**Executive Summary:**

In assessing the location, mass and scale of the proposed wall mounted smoking canopy, this is limited to an inward facing elevation of a mobile building located within the centre of the site. As such, it is considered that it would result in little or no harm to the character or appearance of the surrounding conservation area.

With regards the impact on visual amenity, due to its discreet location within the centre of the campus, it is considered that there would be no impact on visual amenity.

**Planning Status:**

Predominantly residential area.

**Relevant Planning Policies:**

National Planning Policy Framework 2012

1. Building a strong, competitive economy
2. Ensuring the vitality of town centres
3. Supporting a prosperous rural economy
4. Promoting sustainable transport
5. Supporting high quality communications infrastructure.
6. Delivering a wide choice of high quality homes

7. Requiring good design
8. Promoting healthy communities
9. Protecting green belt land
10. Meeting the challenge of climate change, flooding and coastal change
11. Conserving and enhancing the natural environment
12. Conserving and enhancing the historic environment
13. Facilitating the sustainable use of minerals

UHT4: Visual Amenity

UHT15: Protection of Conservation Areas

HO20: Residential Amenity

**Site Description:**

The University of Brighton, Greynore, Darley Road falls within the Meads Conservation Area. The built character of which is defined by a mix of ecclesiastical, educational and residential buildings, including All Saint's Hospital.

Although mixed in use, Darley Road is primarily residential in scale. The visual character, defined by the aesthetic merits attached to the buildings which vary according to their function. The urban blocks sited on the south end of the road, are noticeably larger in scale to accommodate the identified educational uses, such as the red brick and flint chapel, associated with the Edwardian buildings of St. Andrews.

In context Greynore, located on the east side opposite St Andrews, is sited behind Robert Dodd House as part of a campus which contains several modern buildings, some attached to older properties such as the frontage block on the north side of the road (dated 1884). In addition to which the brick and flint wall, which form boundary of the site, makes a positive contribution to the character and appearance of the conservation area.

**Relevant Planning History:**

None relevant

**Proposed development:**

The installation of a wall mounted smoking canopy to an existing portacabin building within the centre of the campus.

**Consultations:**Internal:

Estate Manager – No response

Specialist Advisor (Arboriculture) – No objection

Specialist Advisor (Conservation) – No objection

External:

County Archaeologist – No objection

**Neighbour Representations:**

None received

**Appraisal:**

The main considerations in the determination of this application is the impact of the proposed development on the character and appearance of the building, surrounding conservation area and visual amenity.

Policy UHT1 of the Eastbourne Local Plan states that proposals will be required to harmonise with the appearance and character of the local area and be appropriate in scale, form, materials (preferably locally sourced), setting, alignment and layout. Policy UHT4 states that proposals which have an unacceptable detrimental impact on visual amenity will be refused. Policy UHT15 states that the character or appearance of conservations areas should be preserved or enhanced.

Policy B2 of the Eastbourne Core Strategy seeks to create an attractive, safe and clean built environment with a sense of place that is distinctive and reflects local character. Policy D10 requires all significant heritage assets to be protected and enhanced where practicable. Policy D10a requires new development to make a positive contribution to the townscape and urban heritage.

In assessing the location, mass and scale of the proposed wall mounted smoking canopy, this is limited to an inward facing elevation of a porta-cabin located within the centre of the site. As such, it is considered that it would result in little or no harm to the character or appearance of the surrounding conservation area.

With regards the impact on visual amenity, due to its discreet location within the centre of the university campus, it is considered that there would be no impact on visual amenity.

As such, the proposal would accord with Policies UHT1 and UHT15 of the Eastbourne Local Plan and Policies B2, D10 and D10a of the Eastbourne Core Strategy.

**Human Rights Implications:**

The impacts of the proposal have been assessed as part of the application process. Consultation with the community has been undertaken and the impact on local people is set out above. The human rights considerations have been taken into account fully in balancing the planning issues; and furthermore the proposals will not result in any breach of the Equalities Act 2010.

**Conclusion:**

In assessing the location, mass and scale of the proposed wall mounted smoking canopy, this is limited to an inward facing elevation of a mobile building located within the centre of the site. As such, it is considered that it would result in little or no harm to the character or appearance of the surrounding conservation area.

With regards the impact on visual amenity, due to its discreet location within the centre of the campus, it is considered that there would be no impact on visual amenity.

**Recommendation:**

Approved conditionally

**Conditions:**

1. Time limit
2. Approved drawings
