

Cabinet

2 July 2018

Public question time

(Agenda item no 5)

The following written questions have been submitted by Sheila O'Sullivan which she wishes to ask of the Leader of the Council and Cabinet Member for Regeneration and Business, Councillor Smith

Agenda item 17 (North Street Quarter): page 147

Cabinet is being asked to fund through an allocation of £700,000 the development of a temporary car park (recommendations 2 and 3) from its capital programme.

Why is this decision being wholly financed by LDC? Why are the NSQ landowners (Mas Rei) not contributing to this work and/or why is it not be co-financed. Or provision made as part of the Land Collaboration Agreement.

Please provide detailed reasons as to why the total burden is falling on LDC. And what detailed assessment has been made to justify this expenditure.
